8-Port DS3/E3 ATM Module for the CBX 500® and CBX 3500™ Multiservice Switches

The 8-Port DS3/E3 ATM Input/Output Module provides industry-standard DS3 physical connections and service interfaces to the CBX 500® and CBX 3500™ switches, and E3 physical connections and service interfaces to the CBX 500® switch. The ports provide trunk or user connections at data rates of 45 Mbps (DS3) or 34 Mbps (E3). You can use this module to provide high-density, high-speed ATM access services. You can also consolidate traffic from multiple access lines or from lower capacity multiservice switches for more cost-effective transport over a high-speed ATM multiservice backbone. The 8-Port DS3/E3 ATM module can help you reduce transport costs and increase revenue opportunities from high-density access services.

Applications

- Provide high-density, high-speed ATM access
- Consolidate low-speed ATM access services

Features

- High port density — up to 112 DS3/E3s per switch
- Independent logical port configuration
- Signaling support for 3,000 new VCs per second
- All ports operate at line speed
- Generous port and switch cell buffers ensure data integrity
- Optional Flow Control Processor ensures network fairness and QoS
- Hot swappable

Benefits

- Deliver the flexibility, QoS support, and performance required for high-speed multiservice networking
- Increase revenue potential by offering high-density services from a compact chassis
- Concentrate large volumes of high-speed ATM traffic cost-effectively
- Reduce operating costs and simplify network management with Navis® network management software

Technical Specifications

Description	Specifications
1. **Protocol Features Supported**	
Standards Support - DS3	ITU G.703, G.804
	ANSI T1.102, T1E1.1/94-002RI, T1.107, T1.107a, T1.403
	ATM Forum UNI 3.0, 3.1
	Telcordia TR-NWT 001112, TR-TSY-000499, TR-NWT-000820
	RFC 1407
	TR54014 (AT&T ACCUNET T45 and T45R)
Standards Support - E3*	ITU G.703, G.705, G.751, G.832, G.804
	ATM Forum 94-0406R4
	RFC 1407

* E3 support available on CBX 500 only.

Technical Specifications *(continued)*

Description	Specifications
2. **Network Synchronization**	
	External and internal Stratum 3
3. **Operations, Administration and Maintenance**	
	Internal, external, and line loopbacks
	Alarm monitoring
4. **Network Management**	
	Managed by Navis® Integrated Network Management Systems
	Performance monitoring through NavisXtend™ software
5. **Physical Dimensions**	
Size:	18 in x 1.06 in x 11 in (45.72 cm x 2.69 cm x 27.94 cm)
Weight:	5 lbs (2.3 kg)
6. **Power**	
Wattage:	75 watts
7. **Environmental**	
Temperature range:	32° – 122° F (0° – 50° C)
8. **Regulatory Compliance**	
Electromagnetic Emissions Certifications:	FCC Part 15 Class A
	CISPR Class A
9. **Interfaces**	
Physical Interface	
DS3	8 ATM UNI 3.0/3.1 cell-bearing DS3 ports supporting C-bit, M-framing, PLCP per TR-TSY-000773, and direct cell mapping per G.804
E3*	8 ATM UNI 3.0/3.1 cell-bearing E3 ports supporting G.751 frmaing and direct cell mapping per G.804

* E3 support available on CBX 500 only.
